## Profile

MBA-qualified Project Management professional with strong technical leadership experience in Agile software environments. Proven ability to facilitate scrums, lead technical discussions, support product decision-making, and coordinate cross-functional teams to ensure efficient project delivery.

Experienced in collaborating with Product Owners, identifying technical risks, improving team workflows, and maintaining alignment between business objectives and engineering execution.

Brings a strategic mindset, strong communication skills, and a solid understanding of the full SDLC to drive structured and predictable project outcomes.

## Experience

### Accessibility Consultant | Ipedis Apr 2026 – Present

- Lead accessibility (A11y) initiatives to ensure compliance with WCAG standards across web applications.
- Conduct accessibility audits and provide actionable recommendations to improve usability for users with disabilities.
- Review UI components and code to ensure semantic structure, keyboard navigation, and screen reader compatibility.
- Gather and analyze accessibility requirements by engaging with stakeholders and clients.
- Consult clients to assess accessibility needs and recommend compliant, user-friendly solutions.
- Translate business and user requirements into actionable accessibility improvements.
- Act as a point of contact between clients and technical teams to ensure accessibility standards are clearly understood and implemented.

### Software Developer III | Dayforce Nov 2024 – Feb 2026

- Developed robust web applications using HTML, CSS, TypeScript, .NET and React.js.
- Designed and published a custom NPM package promoting modularity and reusability.
- Automated CI/CD processes through GitHub Actions, enhancing project delivery speed.
- Led technical team meetings to align development efforts with product goals and architectural standards.
- Facilitated daily scrums and touchpoint meetings to ensure transparency, unblock issues, and maintain delivery momentum.
- Partnered closely with the Product Owner to provide technical input on backlog prioritization, feasibility, and implementation strategy.
- Contributed to story refinement sessions by identifying technical risks, dependencies, and scope considerations.
- Coordinated task distribution across developers to balance workload and improve sprint execution.
- Implemented structured time-boxing practices to enhance team focus and delivery predictability.
- Established a knowledge handover framework to reduce dependency risks and improve team continuity.

- Acted as bridge between engineering, design, and stakeholders to ensure clear communication and shared expectations.
- Conducted customer demos and explained technical solutions in business-friendly language.
- Supported CI/CD improvements to streamline release cycles.
- Championed accessibility (A11y) compliance and quality code standards.

#### **Software Engineer in Test | Dayforce** Sep 2023 – Nov 2024

- Worked with SpecFlow and FitNesse for automated testing.
- Developed test scripts and components in C# (.NET framework).
- Collaborated with development teams on React-based applications.
- Executed manual and automated tests ensuring seamless release cycles in an Agile setup.

#### **Webmaster / Developer | Ambrex Ltd** Jul 2023 – Sep 2023

- Managed and enhanced Shopify websites with PageFly Landing Page Builder.
- Implemented upsell and cross-sell strategies to boost conversions.
- Designed and optimized visuals using Adobe Photoshop.

#### **Tester | Total Energies** Jan 2023 – Jul 2023

- Created and executed manual test cases and documented defects in Jira (Xray).
- Collaborated in Agile teams to refine user stories and test new features.
- Documented project features on Confluence, ensuring traceability and clarity.

#### **Front-End Engineer | Prodigious Brand Logistic**

Nov 2016 – Dec 2024

- Developed responsive websites using HTML, CSS, Sass, JavaScript, jQuery, React.js, and Node.js.
- Experienced with Shopify and Twig templating, and Tailwind CSS frameworks.
- Integrated with multiple CMS platforms including WordPress, Drupal, Symfony, Typo3, and Salesforce Page Designer.
- Managed SEO optimization and responsive newsletter templates.
- Estimated project timelines, coordinated client communications, and ensured on-time delivery.

#### **Trainee Android Developer | Jini Guru Mauritius Ltd** Nov 2015 – Dec 2016

#### **Trainee Software Developer | SEDECO** Mar 2015 – Jun 2016

#### **Trainee Software Developer | VESL Technologies Ltd** Apr 2014 – Jun 2014

### **Education**

- MBA in Project Management | University of Technology, Mauritius | Oct 2019
- BSc in Software Engineering and Diplôme d'Université | Université des Mascareignes | Oct 2015
- Diploma/DUST in Software Engineering | Université des Mascareignes | Oct 2014
- High School Diploma | Palmdale High School, California, USA | Jun 2009
- Junior High School Diploma | Cactus Junior High School, California, USA | Jun 2005

## Project management competencies

- Agile & Scrum Ceremonies Facilitation (Daily Scrums, Technical Meetings, Touchpoints)
- Cross-Functional Team Coordination
- Product Owner Technical Advisory & Backlog Support
- Story Refinement & Technical Risk Identification
- Delivery Tracking & Task Allocation Oversight
- Timeboxing & Team Productivity Optimization
- Risk & Dependency Identification
- Knowledge Transfer & Handover Process Implementation
- SDLC Oversight (Requirements for Deployment)
- CI/CD Process Improvement
- Client Demos & Executive-Level Communication
- Conflict Resolution & Team Alignment
- Process Improvement & Workflow Optimization

## TECHNICAL FOUNDATION (Strategic Advantage)

- React.js, TypeScript, JavaScript
- .NET Framework, Express.js
- Git, CI/CD (GitHub Actions)
- Jira, Confluence, Xray
- CMS Platforms (WordPress, Drupal, Shopify, Salesforce)

## Strengths

- Strong leadership and decision-making ability
- Excellent stakeholder communication
- Strategic thinker with analytical mindset
- Ability to manage multiple projects simultaneously
- Deadline-driven and results-focused
- Continuous learner with growth mindset

## Activities and Interests

Guitar | Basketball | Fishing | Photography | Reading
